Our designs might have
changed but the quality
remains. ercol, since 1920.

We are one of the UK's best-known designer-makers of quality wood furniture. Our production process is a perfect marriage of traditional craft skills and technology, in which we carefully harness the natural variations in wood to make every piece unique. With our timeless designs, fine materials and exemplary craftsmanship, our products are built to last, and remain both beautiful and useful over many generations.

Dine

Gather round. Our dining furniture is shaped by nature's character and crafted for connection. Where every grain detail, curve, and joint sets the scene for meals shared and memories made.

Timeless design and natural beauty.

Our designs have their origins in the mid 20th Century, and remain relevant and retain their appeal today. But their true beauty comes from the colours, grains and other natural features of the timber we use to make them. Our founder profoundly understood and celebrated that infinite variation. Ten decades later, we still do.

We are working with what nature provided.

No two sections of timber are alike, because no two trees are alike. Their individual grains, colours, knots, medullary rays and other features make every piece of oak or ash as unique as a human fingerprint. Some might see these as flaws or imperfections to be painted over, sanded out or simply hidden away. At ercol, we see this variation as a gift from Nature: an endless source of detail, character and fascination, impossible to contrive or replicate, that we celebrate and put at the very heart of our products.

Tradition and technology in harmony.

For us, applying modern technology and traditional craft skills is not a binary question. We see no contradiction between them, and they coexist perfectly in our production process. We love our CNC machines and other advanced equipment for the consistency and quality they bring. But we're also convinced that, for some tasks, nothing can replace the human hand and eye. And here at least, nothing ever will.

Live

Comfort, crafted with care. Our sofas and living furniture celebrate the warmth of natural timber and thoughtful upholstery, where every detail invites you to sit back, slow down, and stay awhile.

A craftsman in a black t-shirt is shown from the side, leaning over a large, light-colored wooden surface. His hands are resting on the wood, and he appears to be inspecting or working on it. The background is a blurred workshop with various tools and materials.

The irreplaceable human touch.

You can, and we do, use machines to cut timber precisely to the correct shape and size. But you can't teach them to recognise which piece has the required grain, colour and detail to become a sideboard door, drawer front or other feature, and which would be better in a less visible role. For that, you need the trained eyes and skilled hands of our craftspeople – and the dedication and humility to work in harmony with nature, not against it.

Reprise Chair.

One nature many personalities.

Our timber is given its essential character by nature. At the root of our craft is the skill and imagination to express that character fully, and in different ways, to match your setting and décor style. Through careful, considered use of stains and painted finishes, we add colour and variety to our furniture, while taking nothing away from the innate beauty, depth and intricacy of the wood's natural grain. From light and clear to rich and dark, we give you nature in all its moods.

We are and always have been the masters of our craft.

ercol was established over 100 years ago in 1920 by Italian designer Lucian R Ercolani in High Wycombe, the centre of English furniture making. He was intent on designing and producing relevant and honest furniture, design and people were the cornerstones of his company from the very beginning. This remains true of the company today, it remains family owned with Lucian's great grandson, Henry Tadros, heading up the business to continue his beliefs today.

Sleep

The perfect night's sleep does exist, with a bed that honours nature's quiet elegance. Crafted in wood, each curve and grain tells a story of rest, rooted in honesty.

Wood finishes

Our furniture is finished with a wood stain, the options for which are shown right and on relevant product specification pages, before a coat of lacquer is applied to protect the furniture. Please note that our Clear Matt (CM) finish seals and protects the furniture. As a result, it does not blend or conceal any of the natural variations within the timber. It will show the wood colour and grain off to its full, natural beauty.

Timbers can also vary from range to range. To see a sample colour and finish of the wood, order a sample on our website.

Fabric ranges

We have a wide range of fabrics and leathers for selected ranges. Fabrics have been carefully chosen to suit the furniture designs and the names of the fabric collections are shown on the specification pages - ercol, Casa, Edit, Natura, Paloma, Universal and Dining. To view these fabrics or leathers on the furniture visit the product pages on ercol.com.

Sofas are measured to maximum dimensions, but due to the manufacturing process, these can vary slightly. Scatter cushions supplied are as per images shown on pages 104-117.

We offer a re-cover service on some show wood frame ranges. You can order genuine ercol replacement cushions to extend the life of your furniture. The ranges available for this service are listed in our ReCover guide or at ercol.com/recover

Bosco

Feature finger joints and curved corners create a distinctive profile for the Bosco collection. The exposed dovetail joints on the cabinets makes the Bosco range tactile by nature, and creates a relaxed oak dining and living collection. Finished in clear matt lacquer to protect the wood and enhance its natural hue and grain.

Solid oak and oak veneers.

Canvas

The Canvas collection is a discrete, sophisticated solution for minimising household clutter. The sliding doors, which are offered in a choice of solid wood and upholstered finishes, have hidden handles to preserve their smooth, sleek lines. Black steel legs and precise dovetail joints perfectly demonstrate the blend of modern materials and aesthetics with traditional craft techniques.

Reprise

The Reprise Upholstered Chair features Lucian Ercolani's traditional wood turning and steam-bending techniques. With roots dating back to 1944, the chair's seamless silhouette is achieved by steam-bending a single piece of timber to create a flowing, uninterrupted line that stretches all the way around the backrest. Featuring a removable back cushion for added comfort.

Solid ash. Available in ercol and Universal Collection fabrics.

Mattresses

Working in partnership with British mattress-maker Harrison Spinks, we've designed and produced a range of four mattresses - the Wooton, Ledwell, Culworth and Bainton - to meet different customer requirements and price points. They're all handmade in the UK using natural materials including wool, hemp, Egyptian cotton, mohair and even cashmere. They also include the pioneering Cortec spring system that, as well as providing incredible comfort and support, are 100% recyclable and glue-free. The mattress covers, which are handwoven in the UK using state-of the-art machines, are breathable for comfort and free of fire retardant chemicals. Taken together, this all means our mattresses are zero-to-landfill at the end of their (long) lives. Compared to many mattresses, they're much better for your health and sleep patterns, and have vastly less impact on the environment.

Winslow

The shape and design of the ercol Winslow bedroom collection was inspired by the 376 'candlestick' chair designed in 1956 by the ercol founder, Lucian Ercolani. The design has been reinterpreted and the collection focuses on this heritage to create a range that has elegant tapering legs, oak spindles and plenty of storage. Made of matt lacquered oak, the Winslow range is elegantly timeless.

Without our people we would not exist.

Quality can't, won't and shouldn't be rushed. The timber we use in our furniture takes decades, even centuries, to grow and mature. No surprise, then, that it takes years to perfect the skills that make our products unique, and our craftspeople the best in the business. We're proud to have so many long-serving people on our team, including those who've been with us their entire working lives. And we're thrilled that, through our talented apprentices, we're helping to keep those skills alive for generations to come.

Furniture that's made with care and experience.
