

# 3830 WINDSOR IR TV UNIT

As well as accommodating your television, the Windsor IR TV cabinet provides an adjustable glass shelf for placement of a smart box and DVD player within the closed cupboard. The ercol IR eye, allows you to use your remote control for your DVD player and Digi boxes with the door closed, keeping your electronic gadgets and all the wiring hidden from view and free from dust. There are four cable openings placed conveniently at the back of the unit. The cabinet features Windsors signature oval carved handles with matching recesses. In a lovely design feature the handles twist to open the doors. This TV unit will be finished in your choice from a range of lacquer colours that both protects the timber, whilst enabling you to choose the look to match your style and dcor.
