

7913 EVERGREEN EASY CHAIR

The wonderfully steam bent back bow arches gracefully to create the classic high back, making the armchair a timeless piece, perfect for your living room or conservatory. The Evergreen armchair echoes centuries of tradition combined with the latest upholstery levels of comfort. The seat cushion made from supportive foam and the back cushion constructed of a range of foams provides an upright, supportive sit. Extra support is added by the upturned arm rests which extend from either side of the back arch, supported by turned lists. Foam upholstered arm coverings make this chair a cosy sit. The high back on this lounge chair provides added support and the webbing on the base of the chair adds spring and comfort. Classic Windsor wedge joints both provide great strength and a beautiful feature on the arms, whilst ercol comb joints provide great strength to the seat frame. This Evergreen arm chair is available in a choice of finishes and a selection of fabrics from the ercol collection, enabling you to choose the look to match your style and decor. We will make your chair in your choice from the wide selection of ercol fabrics from the ercol collection. Evergreen features a buttoned back cushion and so we do not recommend the use of striped fabrics with this chair. Couple this chair with the Evergreen footstool for total relaxation.
