This product takes approximately **40 MINUTES** to assemble with **2 PEOPLE**.

The fittings pack contains **SMALL ITEMS** which should be **KEPT AWAY FROM YOUNG CHILDREN**.

**Ref: 00237/2687**

## Fittings and parts checklist

A	Top panel x 1	J	L/R hanging rails x 2	
B	LH side panel x 1	K	Middle hanging rail x 1	
C	RH side panel x 1	L & M	Allen bolts x 22 Allen key x 1	
D	Left & Right doors x 2	N	25mm Screws x 4	
E	Bottom panel x 1	O	16mm round head Screws x 32	
F	Support leg x 1	P	Shelf pins x 8	
G	Middle section x 1	Q	16mm screws x 8	
H	Back panels x 2	R	Wedges x 2	
I	Shelves x 2			

## Step by step assembly instructions

1. First bolt the support leg, F, onto the bottom of the panel, E, using 2 of the allen bolts L and the allen key provided. as shown below.

2. Using 6 of the allen bolts attach the side panels B & C to the bottom panel, E.

3. Take the two drawers out of the middle section, G.

4. Using 4 of the allen key bolts, L, attach the middle section to the base of the wardrobe, E as shown.

Fittings

 L X 4

 M

5. Using 10 allen bolts L, fix the top panel to the wardrobe as shown.

Fittings

 L X 10

 M

6. Using 32 of the 16mm round head screws O, attach the two back panels, H onto the back of the wardrobe.

Fittings

 O X 32

7. Using the 4x 25mm screws, N, attach the top panel to the sides through the pre drilled holes inside the wardrobe. Attach the bottom of the middle section to the bottom of the wardrobe as shown below. Then attach the L/R doors onto their hinges. Attach the door panels onto the side panels as shown below.

Fittings

8. Sit the hanging rails J and K into their brackets in the wardrobe. Put the drawers back into the middle section. Choose where you would like the two shelves to sit and put the 8 shelf hooks into the pre drilled holes accordingly, as shown. Rest the shelves on the hooks and using the 16mm screws Q, screw them up through the shelf hooks and into the bottom of the shelves to hold them securely in place. Finally check that the doors are aligned correctly, if necessary adjust the doors hinges as shown.

# Wall fixing instructions

Thank you for purchasing this ercol product.

Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Installation shall be carried out exactly according to the manufacturer's instructions, otherwise a safety risk can occur if incorrectly installed.

**WARNING: In order to prevent overturning this product must be used with the wall attachment device provided.**

1. Place your product in the final position. Loosen the screws on the metal brackets just enough so that the slotted bracket can be extended to meet the wall. Then take out the screw and turn over the bracket as step 2 shown.

2. Then re-secure the screws.

3. Mark the wall for drilling through the hole in the short face of the bracket.

Then remove the unit from the wall so that the marked holes can be drilled.

Ensure you use an appropriate fixing type for your wall (see page 8). Then return the unit to position.

4. Secure the unit to the wall fixings with own screws through the brackets.

## Warning

**Serious or fatal crushing injuries can occur from furniture tipping over.**

**To prevent this furniture tipping over it must be permanently fixed to the wall.**

Wall attached item only.

A guide to wall mounting and fixings

### Warning

Serious or fatal crushing injuries can occur from furniture tipping over.

To prevent this furniture from tipping over it must be permanently fixed to the wall.

Wall fixing screws are not included, since different wall materials require different types of screws / fixings. Please ensure you use the correct screws / fixings for your type of walls and seek professional advice if you are not sure.

Failure of the product due to incorrect fixings is the responsibility of the installer.

**Important:** When drilling into the walls always check that there are no hidden wires or pipes etc.

### Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breezeblock, concrete, stone or wood.

1. General Purpose wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general - purpose wall plugs can be used.

2. Plasterboard wall plug

For use when attaching light loads on to plasterboard partitions.

3. Cavity Fixing wall plug

For use with plasterboard partitions or hollow wooden doors.

4. Cavity Fixing - Heavy Duty wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

5. Hammer Fixing wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

6. Shield Anchor wall plug - Heavy loads

For use with heavier loads such as TV and Hi-Fi speakers and satellite dishes etc.

Safety: Periodically check all fittings and wall fixings to ensure they have not come loose and retighten as necessary.

If the chest is not level on your floor use the wedges provided, and snap them off so that they do not protrude out from the cabinet's legs, you can also snap them lengthways if desired.
