ercol Winslow Double Bedstead  
Stock Number: 4170/455

H107 W150 D207cm

Ref: 00455 / 4170

Thank you for purchasing the ercol Winslow Double Bedstead. Please read the instructions and warnings carefully before use, to ensure safe and satisfactory operation of this product.

We are committed to making great products possible.

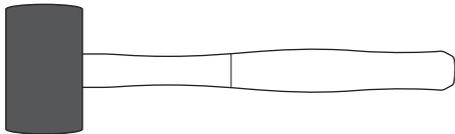

From our in-house Design Team, to our Buyers, we work together to bring great design to life.

Our expert Product Technologists work collaboratively with our buyers and suppliers to assure the legality, safety and quality of the product we sell.

We are all committed to designing and developing products to the highest industry standards.

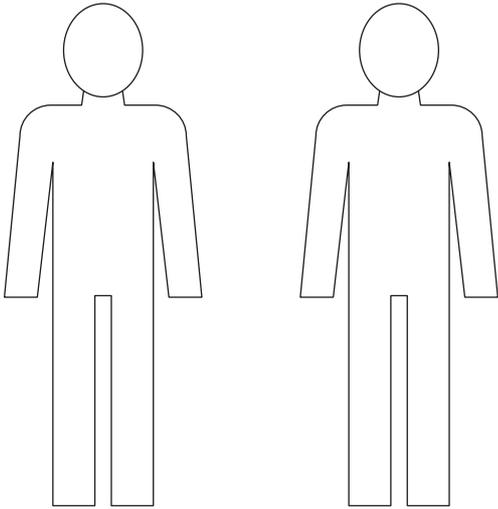

We hope you are happy with your ercol product and welcome any feedback or comments you may have.

## Tools Required

**Time to assemble**  
1 hour

**People to assemble**

The image is a rectangular box containing assembly information. At the top, the title "Tools Required" is written in a bold, sans-serif font. Below the title is a simple line drawing of a mallet with a dark grey head and a light-colored handle. Underneath the mallet, the text "Time to assemble" is followed by "1 hour" on the next line. Below that, the text "People to assemble" is followed by two simple line drawings of human figures, one on the left and one on the right, representing the number of people needed for assembly.

# Important safety information

## Warnings

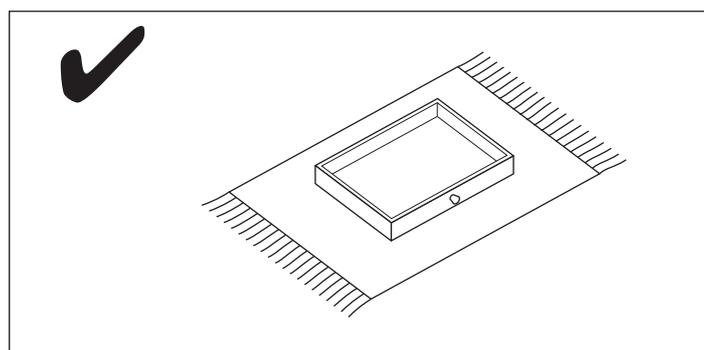

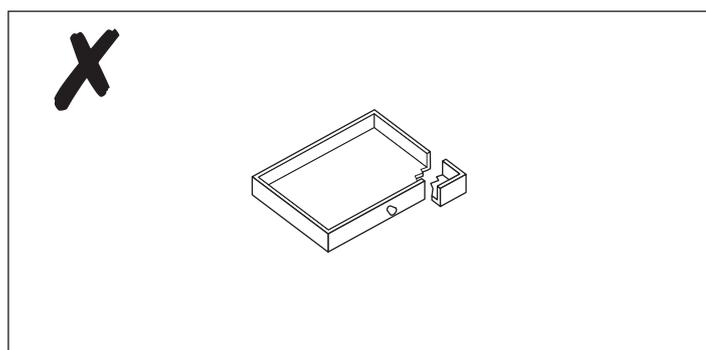

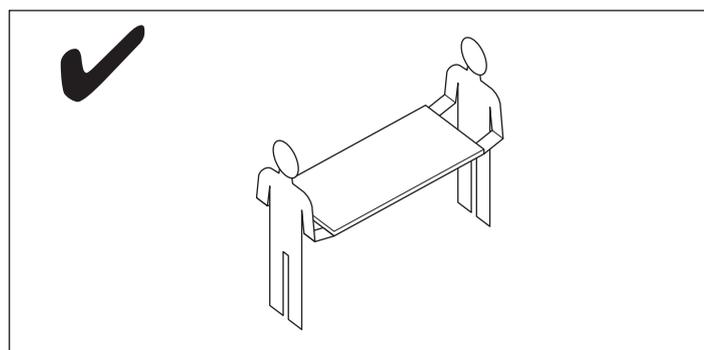

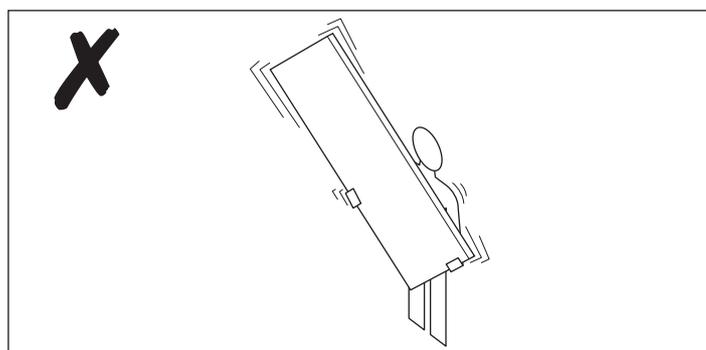

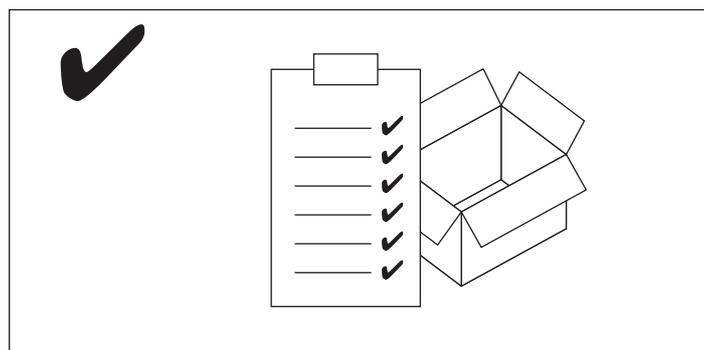

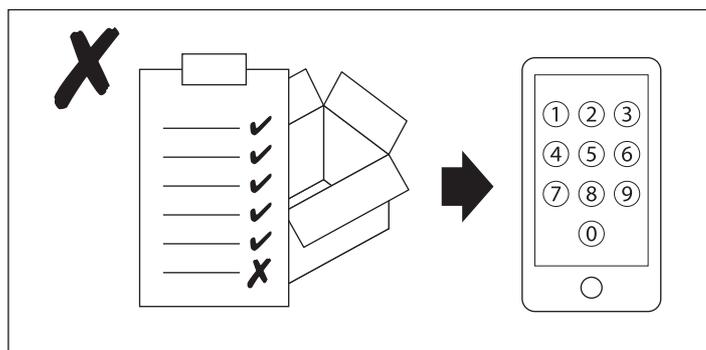

- ⚠ The product should only be used on firm, level ground.
- ⚠ Keep small parts out of reach of children.
- ⚠ Ensure the product is fully assembled as illustrated before use.

## Do's

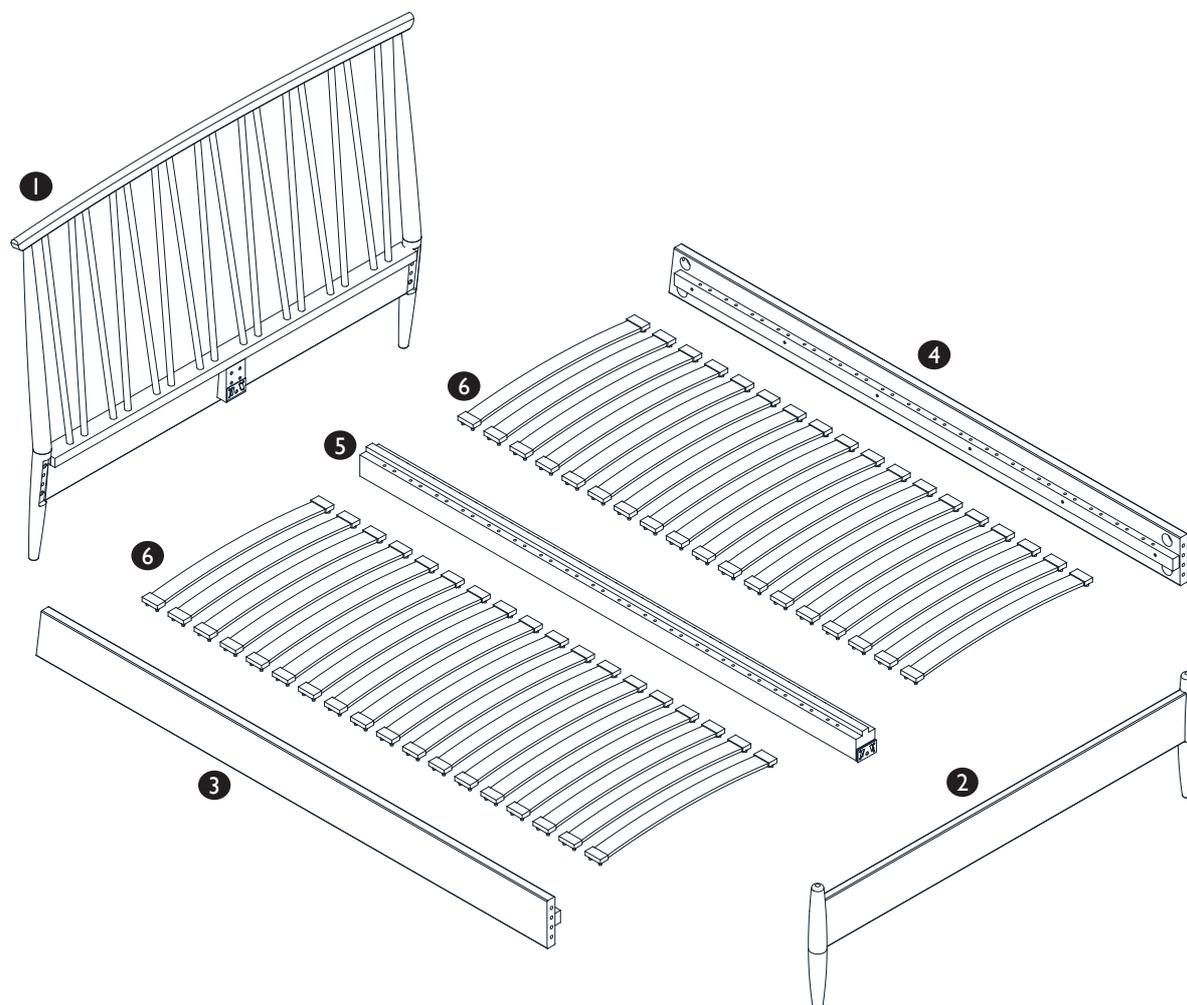

- ✓ Check the pack and make sure you have all the parts listed.
- ✓ Check all screws or bolts are tightened and inspect regularly.
- ✓ Make sure the legs remain in contact with the ground at all times.

## Dont's

- ✗ Do not over tighten screws or bolts.
- ✗ Do not stand on the product.
- ✗ Do not use power tools to construct as overtightening and panel failure may occur.

# Product Assembly

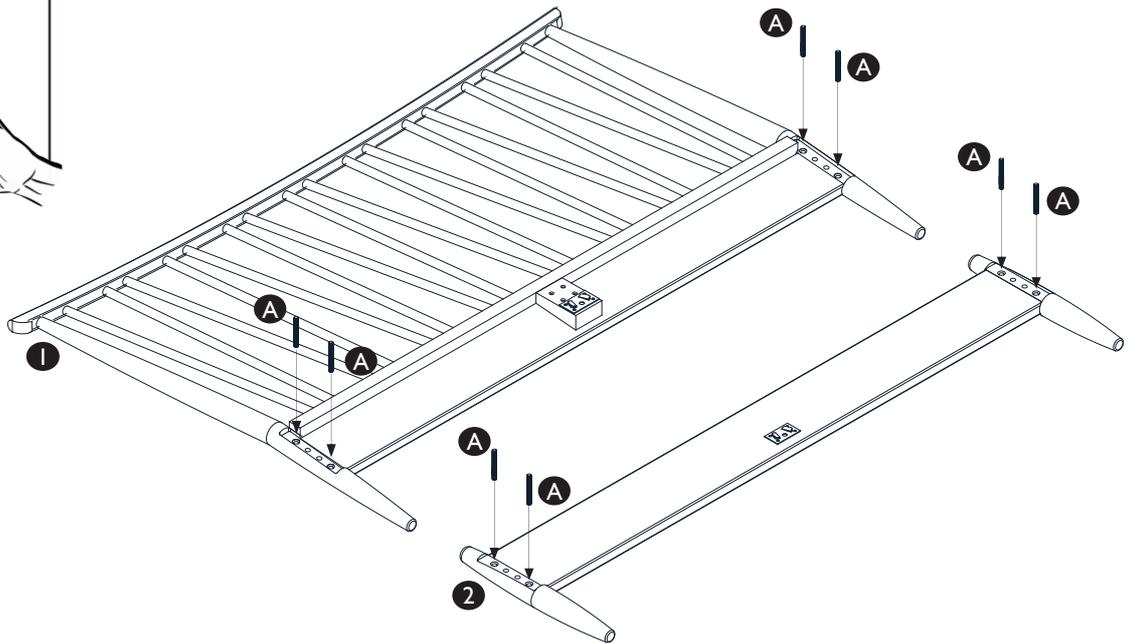

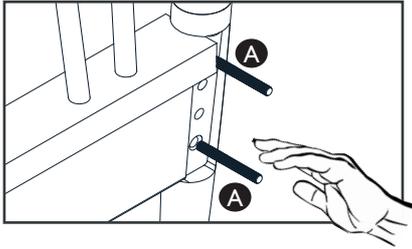

Winslow Double Bedstead  
4170

## Step 1

Parts, fittings and tools

A 1 2

Screw 8x headless bolts (A) to the headboard (1) and the footboard (2).

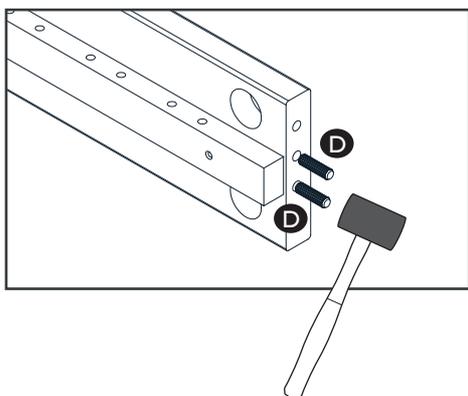

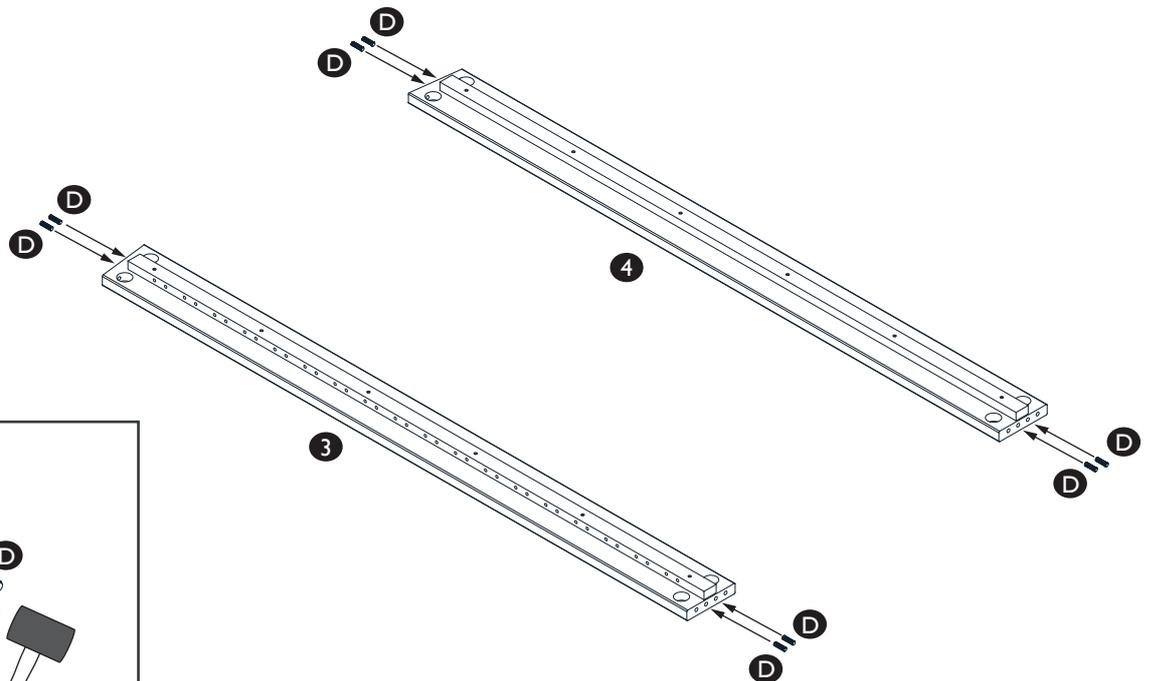

## Step 2

Parts, fittings and tools

D 3 4

Place 8x wooden dowels (D) to the side rails (3 / 4) as shown below.  
Use a soft hammer to fix the dowels in place.

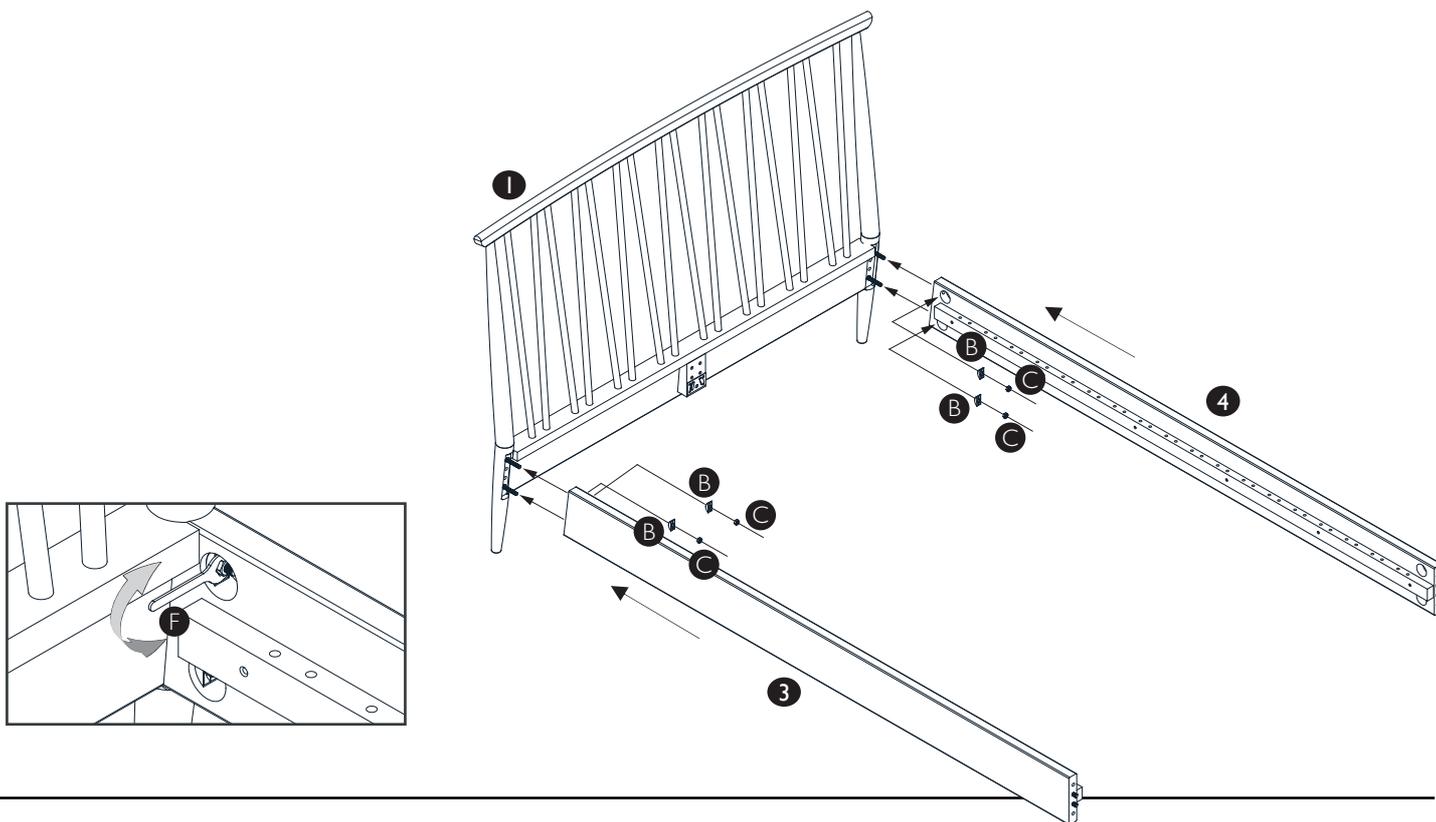

## Step 3

Parts, fittings and tools

1 3 4 B C F

Place 4x fixing heads (B) into the slots on the side rail (3 / 4). Attach the side panels (3 / 4) to the headboard (1) as shown below. Then fix the 4x hex nuts (C) by using a wrench (F).

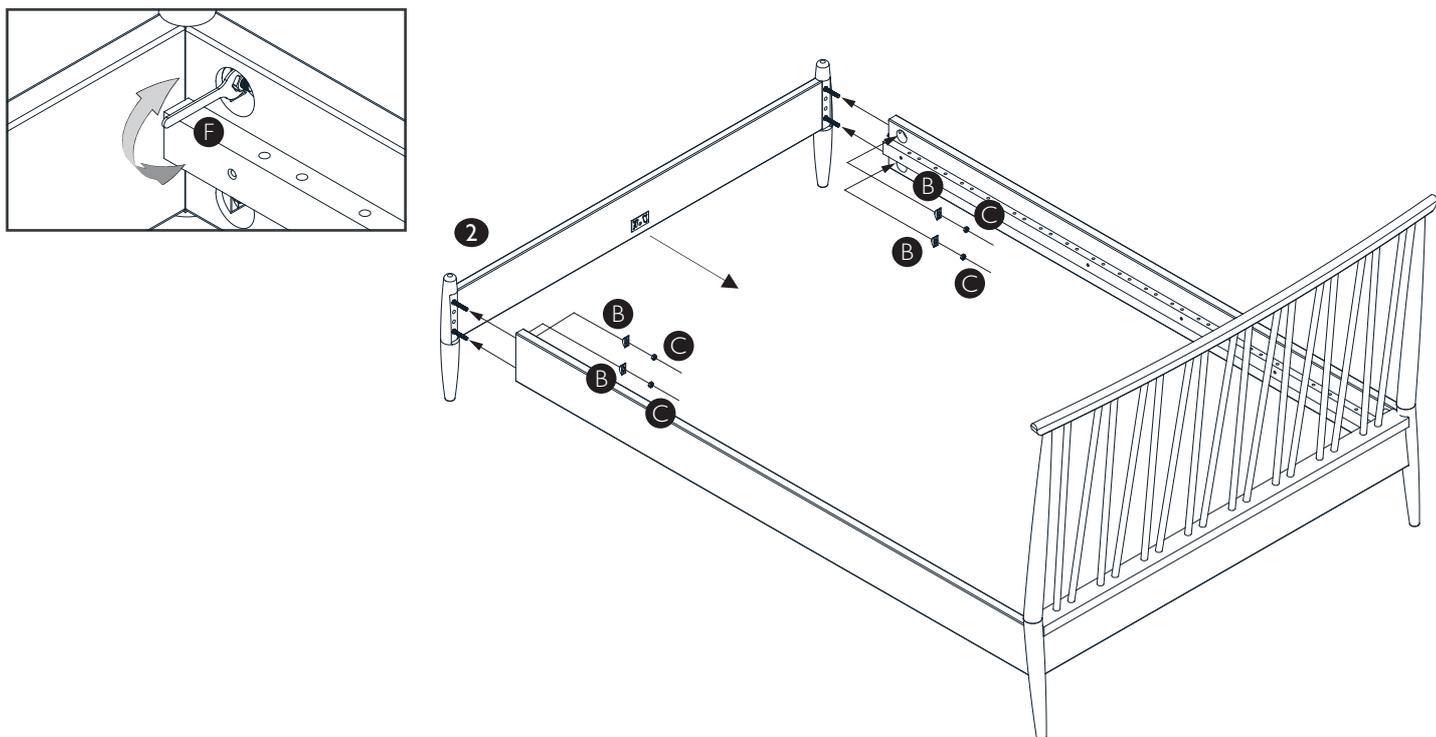

## Step 4

Parts, fittings and tools

2 B C F

Place 4x fixing heads (B) into the slots on the side rail (3 / 4). Attach the side panels (3 / 4) to the footboard (2) as shown below. Then fix the 4x hex nuts (C) by using a wrench (F).

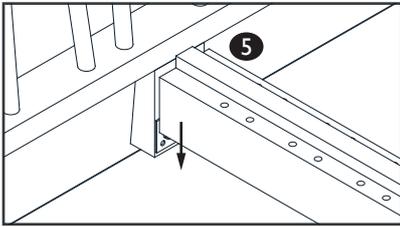

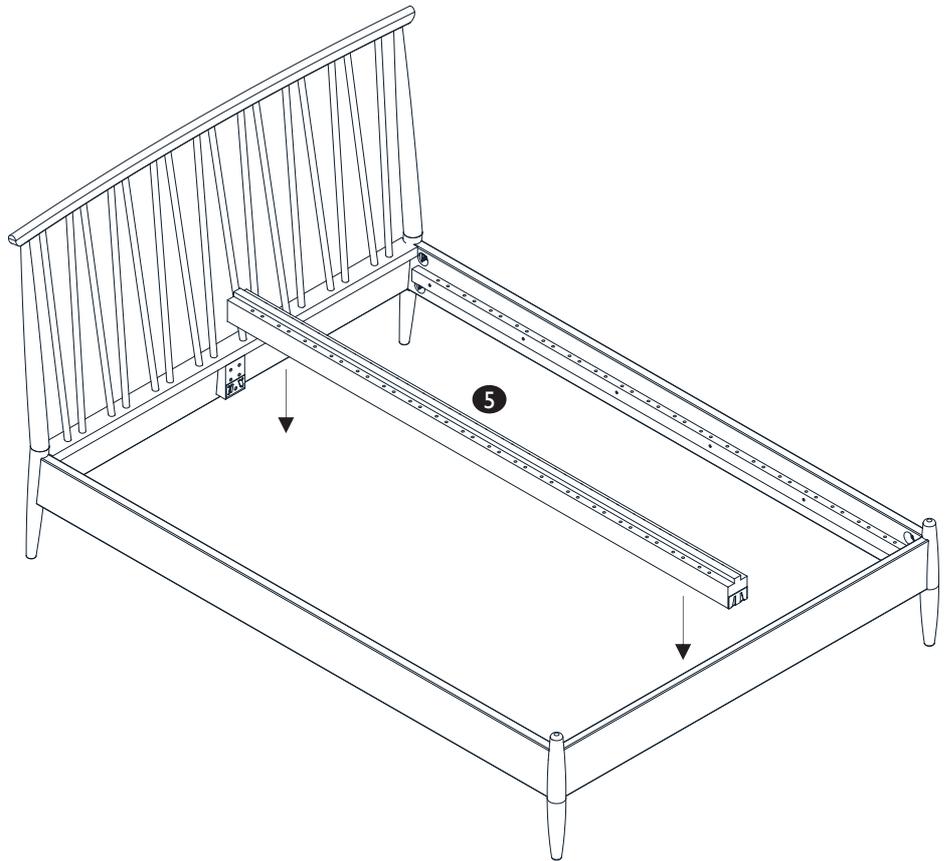

## Step 5

Parts, fittings and tools

5

Place the center rail (5) on the metal attachment pieces as shown below.

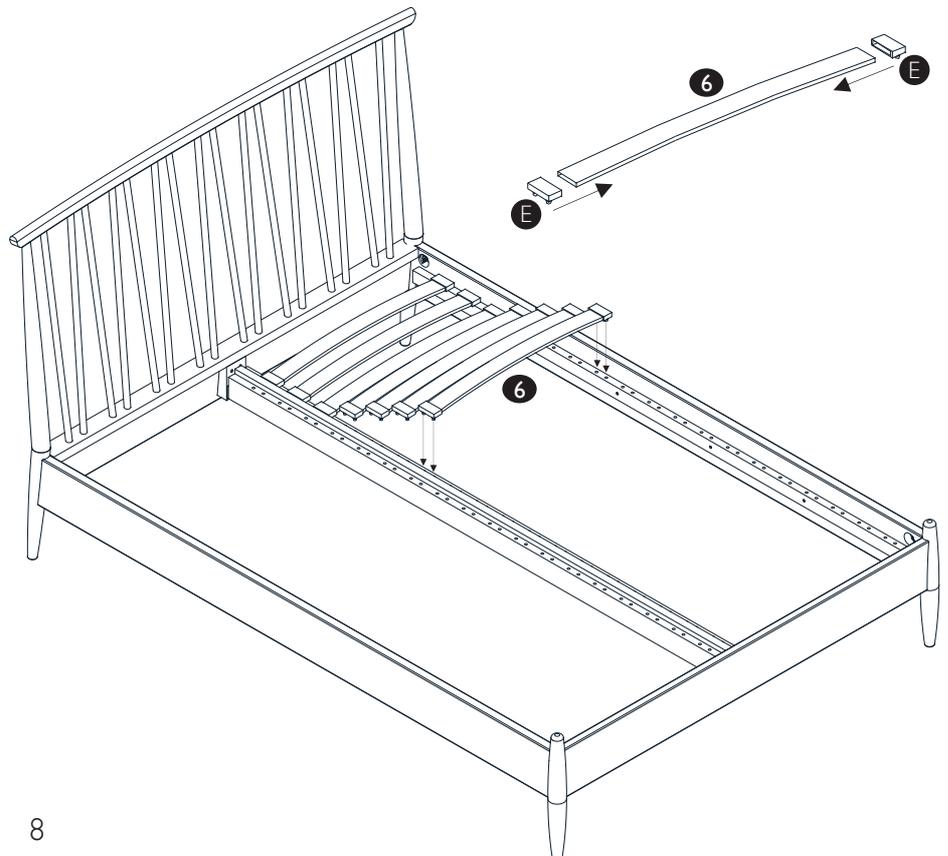

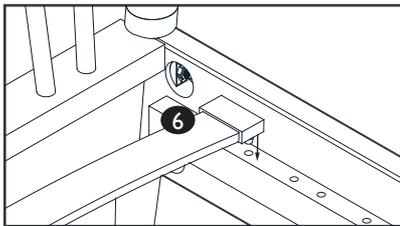

## Step 6

Parts, fittings and tools

6

E

Place 72x slat holders (E) to both ends of the bed slats (5). Attach 36x bed slats (5) to the center rail and the side rails by pushing the slat holders (E) downwards.

### ATTENTION

If any slats are splintered, then please do not use. Leave a space near the top of the bed and order a replacement from us directly using the stock number on the front of this instruction

## Care and maintenance

### Wood Furniture

Wood displays different grain patterns depending on which way it is cut - for example, the 'medullary ray' which can appear on oak furniture is a mark of good quality timber - these are just characteristics of the natural beauty of the wood. Some furniture is also deliberately aged and rustic.

All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

### How to care for your wood furniture

Furniture with hard lacquer, wax polish or painted surface should be dusted with a dry cloth. When using the surface for serving food and drinks it is best to use protective mats and coasters. Spillages should be wiped up as soon as possible.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time. Use of cleaning materials containing abrasive compounds, acidic or caustic reagents and any bleaches containing oxidising reagents should be avoided as prolonged use may damage the lacquer surface. Wipe up spills immediately. If sticky marks occur on the surface they can be removed with a dilute solution of warm soapy water. The offending area should be rubbed lightly and then completely dried immediately afterwards, before replacing any mats etc.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

### Safety Instructions

Never drag furniture when moving it, always lift it. Please take care when handling or moving the furniture as careless handling may cause damage or injury. No liability will be accepted for damage or injury caused by incorrectly installed furniture.
