## 2559 BELLINGDON SHELVING UNIT

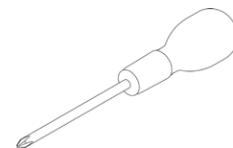

Thank you for purchasing this Bellingdon Shelving Unit. Please ensure instructions are read in full before attempting to wall mount this product.

### PREPARATION

**This is a two person operation**

**Tools you will need**

Please check the pack contents before attempting to wall mount this product. A full checklist of components is given in this leaflet. If any components are missing, please contact the retailer from whom you bought this product.

This product is **HEAVY**, it should be unpacked as near as possible to the point of use.

**TAKE CARE WHEN LIFTING** to avoid personal injury and (or) damage to the product.

The product contains **SMALL ITEMS** which should be **KEPT AWAY FROM YOUNG CHILDREN**.

Read this leaflet in full before commencing installation.

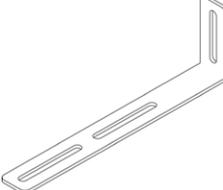

#### **WARNING - WALL ATTACHED ITEM ONLY**

Serious or fatal crushing injuries can occur from furniture tipping over.

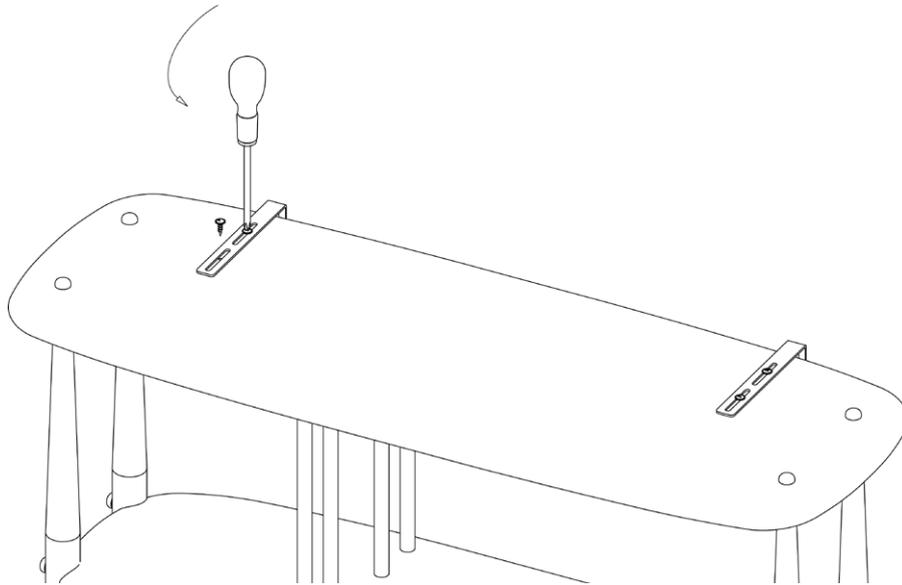

To prevent this furniture tipping over it must be permanently fixed to the wall.

## Fittings and parts checklist

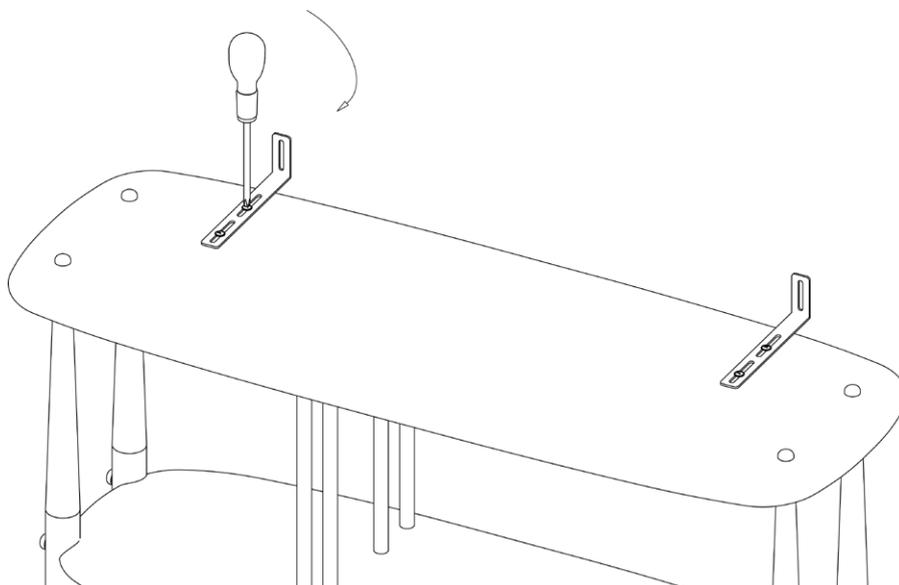

A	5/8" Flange Head Screw x 4 (These are already attached to the unit)	
B	Bracket x 2 (These are already attached to the unit)	

## Bellingdon shelving unit wall mounting instructions

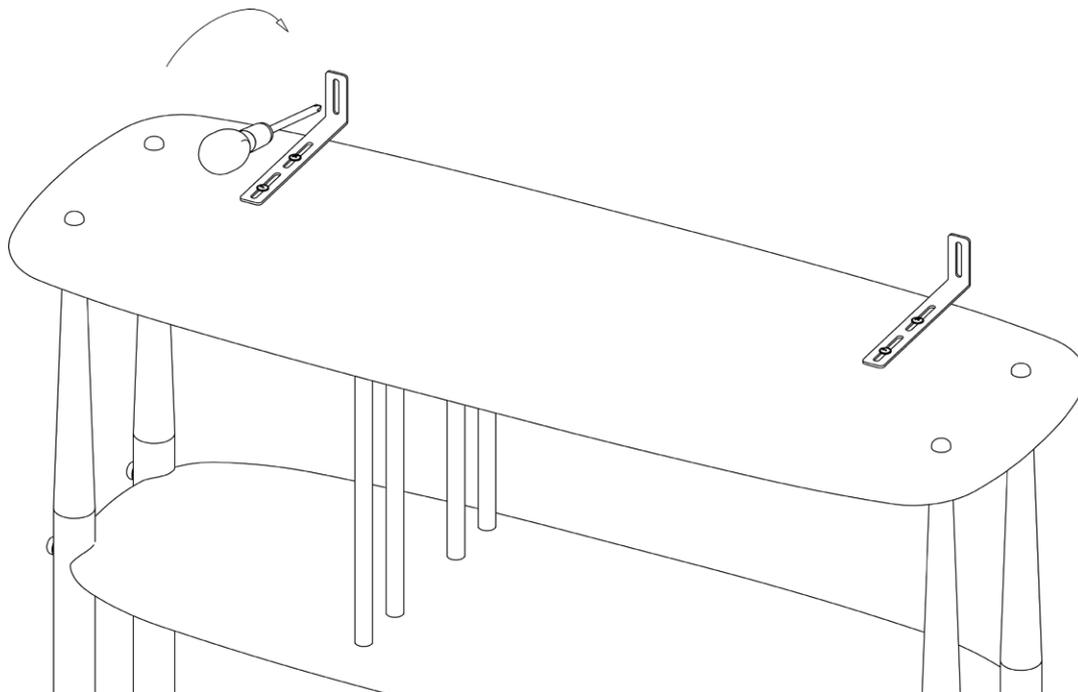

1. For safe transportation the wall brackets have been attached to the unit upside down. To attach the shelving unit to the wall firstly unscrew the screws holding the brackets using a Posidrive screwdriver.

2. Turn the brackets around so the flange is pointing up and reattach using the screws keeping them slightly loose. Slide the brackets along the slot until it meets the wall. Tighten the screws.

3. Using suitable fixings (not included) affix to the wall.

**WARNING - WALL ATTACHED ITEM ONLY**

Serious or fatal crushing injuries can occur from furniture tipping over.  
To prevent this furniture tipping over it must be permanently fixed to the wall.

## Customer Care

**For all customer care queries please contact John Lewis Partnership on 03456 049 049.**

### Wood Furniture

Wood displays different grain patterns depending on which way it is cut. These are characteristics of the natural beauty of the wood. All timber surfaces will change colour and mellow over time.

### Safety Instructions

Never drag furniture when moving it, always lift it. Take care when handling or moving the furniture as careless handling may cause damage or injury. No liability will be accepted for damage or injury caused by incorrectly installed furniture.

### Fabric Care

Every effort is made to keep colours consistent between batches, but fabric manufacturers cannot guarantee exact matching. All fabrics will fade in sunlight, to prolong the life of the fabric do not place it close to a heat source or in direct sunlight. Plump up cushions after use, especially fibre or feather cushions. If the cushions are reversible turn them at least once a week to minimise wear and maintain their appearance. To prevent dust and dirt accelerating wear, gently vacuum upholstery once a week or use a soft brush. For complete cleaning we recommend a specialist cleaning in situ. Accidental spills and stains should be treated as soon as possible, except mud which should be left to dry and then brushed off. Remove any solids, then blot up as much liquid as possible with white paper towel or a clean cloth. We recommend professional dry cleaning but some action can limit damage.
