

7755 ALL-PURPOSE CHAIR

An original 1950's design from company founder, Lucian Ercolani, the All-Purpose chair has become a modern classic for the home. Favoured for both its versatility and practicality, the All-Purpose chair provides a supportive and relaxing seat. The All-Purpose chair features a traditional wedge joints, where the legs come through the seat and a wedge is then inserted into a cut, before the leg stump is hand sanded flush with the seat, to create a lovely design detail and a very strong joint. Made from solid ash, the All-Purpose chair can be finished in your choice from wood and paint finishes that protect the timber, while allowing you to choose the look to match your style and décor.
