

2655 ROMANA WIDE IR TV UNIT

The wide Romana IR TV unit features a cupboard section for storing digital boxes out of sight. The “IR eye” enables use of remote controls for digital boxes with the doors closed. The signature soft curve, and the legs have organic curves and chamfers and fluid wave-shaped cut-out recesses provide the door and drawer handles, another design signature of the range. In the cupboard there is an adjustable glass shelf, drawers and doors have soft-close mechanisms and a the back panel has a cut out that provides easy access for cables. The receiver in the cabinet works with remote controls operating in the 20 – 70 kHz range.
